

Southeast Climate Adaptation Science Center (SE CASC)
Global Change Fellows Program

Sponsored by The U.S. Department of the Interior and NC State University

Nominee Personal Statement of Interest

Please describe your interest in the Global Change Fellows Program, addressing A) a description of your research interests and career goals, B) how the professional development activities of the Global Change Fellows Program will complement your current research program, C) what you bring to the program and what you expect to gain from joining an interdisciplinary cohort as part of the Fellows experience, and D) how your planned research aligns with the [Mission](#) and [Science Priorities](#) of the SE Climate Adaptation Science Center.

This Statement of Interest should be submitted as part of the nomination package from your faculty advisor. The length of the statement of interest should be no more than two pages.
